1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-2, 4, 6, 8, 10, and 74 are rejected under 35 U.S.C. 102(e) as being anticipated by Healey.

Healey discloses a ballistic barrier in combination with an aircraft comprising:

- |   |                        |
|---|------------------------|
| a) an outer shell of the aircraft;            | 2, col. 2, lines 21-58 |
| b) a first woven layer of aramid fabric;      | 7                      |
| c) a second woven layer of aramid fabric; and | 8                      |
| d) an inner panel.                            | 1 or 3                 |

3. Claims 17-19, 22, 24, 41, 53-56, 58, 61, and 77 are allowed.
4. Claim 3 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Rhodes and JP 2-37100 disclose other state of the art ballistic barrier arrangements.
